GENERAL REVIEW.

MR. A. STAMFORD WHITE, President,
Board of Trade of the City of Chicago.

MY DEAR SIR:—

I have the honor to hand you herewith the Fifty-third Annual Report of the Board of Trade of the City of Chicago, that for the year 1910.

The prominent, and fortunately the controlling, characteristic of the year in commercial, financial and industrial circles, is a determined, conservative, systematic and wide-spread purpose along the lines of readjustment of business conditions—the natural and logical consequence of ill-considered and drifting mercantile activities during the preceding year.

The note of warning from shop and factory, from merchant and banker, from farmer and miner, that we were going at too rapid a pace in the prosecution of business, particularly in the creation of business combinations of mammoth proportions, more or less threatening to individual initiative, was heard and heeded.

Indeed during the latter half of the year it was apparent even to the casual observer, that there was a sharp lookout from every point of view lest threatening clouds might appear athwart the financial sky. This precautionary policy, in all probability, saved the country from severe losses, and perhaps, from disaster. The shrinkage in the volume of trade which followed was more than offset by the well nigh universal and steady prosperity that prevailed during the first six months of the year. Upon the whole we have the satisfaction of recording a year of fair and substantial prosperity.

We may congratulate ourselves that the national commercial policy is steadily tending towards the universal recognition of the highest conception of commerce, domestic and foreign, viz.: concession of rights in the markets of the world to all, upon the substantial and permanent basis of mutually profitable trade relations.

The constantly increasing intensity of competition in the sale of our products with those of other countries, admonishes us that the sale and exportation of raw material belong to primitive commercial conditions and to ordinary commercial intelligence and proficiency. In proportion as intelligence is woven into raw material, shall we furnish that with

which the markets of the world are not even yet overstocked, and hence export and sell that which pays a greater profit than is derived from the sale of rude and common products—the result of comparatively unenlightened and unskilled labor. It should be borne in mind that by incorporating skilled labor and brains into forms in which our products are offered for exportation, we shall increase the value of our exports in far greater proportion than by increasing the volume of the exportation of raw material.

By selling the finished product in countless forms of beauty and utility, we avoid coming into competition with low-priced and degraded labor, and compete for commercial supremacy upon a high and an advanced plane, upon which are based enlightened requirements of living. If our industries and our commerce do not lead to such results, they have no part in the improvement and advance of the race, no share in the arts and sciences, in refinement and education, nor in promoting that intercourse of mankind which inspires emulation and leads to excellence in all the walks of life. The question is not how many hours a day a man can work, how early he can rise, and how late he can toil, but how much of cultivated brain he can bring to his task; for brain work, though high-priced, will always successfully compete with cheap and unintelligent labor. Low-priced help is the most expensive element in business conduct, and brain help is the most economical. Great corporations and broad-minded men understand this, and do not seek to compete with low-priced labor by low-priced labor, but by applying mental acuteness and scientific investigation to the diversified conduct of business.

GRAIN EXCHANGES—THEIR FACILITIES, ETC.

So much has been said and so well said, by those exceptionally qualified, both by ability and experience, in explanation and illustration of the methods and facilities provided by the Chicago Board of Trade and kindred associations—most favorably affecting the manifold and important interests of our vast commercial and industrial life—that comparatively little of special importance remains to be presented. A great deal has been accomplished, particularly within the last decade, in informing the people, legislators, and judicial tribunals with the functions of boards of trade. Their vital and constant relation to the public welfare, nay more, their absolute necessity has been shown; the country has a more correct understanding of their true character than ever before, and, therefore, is prepared to discuss the value of the service these great mercantile organizations render to the public for the public, without prejudice, uninfluenced by popular clamor or frenzied denunciation. It is a great gain to have, as it were, constructed a platform upon which to discuss frankly, dis-

passionately and understandingly, the system of buying and selling for future delivery; that system which, in the not remote past, has been assailed most vehemently and without a proper knowledge of its purposes, its net results as shown in the history of the grain trade for more than half a century, or its truly ethical position in the science of political economy. In the administration of this system, Boards of Trade pronouncedly stand for equity, and gather for both buyer and seller, consumer and producer, that great fund of information from the four quarters of the world, without which unstable prices and violent fluctuations would seriously, and, perhaps, disastrously disturb normal and legitimate conditions.

As the result of this system, the farmer is kept informed, and that without expense to him, of the correct answers to those inquiries which arise in attempting to place true values upon the commodities dealt in under the rules of this Association. These answers are furnished in the interest of all, not by slow, inadequate and primitive methods, but by the lightning messenger, which day and night flashes them under oceans and across continents to distant markets and fields. This is not all; the telegraphic voice tells of the quotations of farm products in the great markets of the world, and of all those varying phases of commercial and political life which affect the values of the great staples.

THREATENED HOSTILE LEGISLATION.

Happily the disaster threatened by various congressional bills has been averted, and the enormous business fabric built up and justified by years of experience, stands firm and unimpaired. It is fortunate, indeed, for the country, and especially for the agriculturist, that the efforts to overthrow this system have not prevailed. If, by any possibility, bills inimical to the great Grain Exchanges of the country should be enacted, the farmer would be the first to cry out against the law and to clamor for its repeal. The agitation of the subject has shown that the principles of this system permeate every phase of commercial activity, and that it is absolutely essential to the proper and conservative conduct of business; that, moreover, it is the adjuster of prices in the interest of producer and consumer alike—prices determined by the law of supply and demand, which can not be thwarted, although that law may be temporarily interfered with by abnormal conditions. It has been made clear that this system holds the scales which determine intrinsic values of grain, provisions, cotton, tobacco, etc., with an even hand; that by it the wants of the agriculturist have been met; obligations small and great have been promptly discharged, and sales effected at prices warranted by true and prevailing conditions the world over.

The following tables show the percentages of last year's crops of wheat, corn, and oats on hand March 1, 1911:

Secretary.

January 9, 1911.

During the year the bonded indebtedness was reduced \$50,200, and now stands \$1,044,300, bearing 4 per cent. interest, payable on the first day of June and the first day of December of each year.

The membership of the Board on the 9th day of January, 1911, numbered 1647, showing a reduction of 19 during the year.

The pro rata amount assessed by the Board of Directors, under the provisions of Section 5 of Rule IV, for the ensuing year is \$75.

As indicating somewhat the volume of business transacted under the rules of this Board, we observe that the receipts of grain, and of flour in its grain equivalent, at Chicago during the year 1910, aggregated 294,858,724 bushels, and shipments 214,601,080 bushels.

The quantity of cured meats received aggregated 180,881,600 pounds, and shipments 562,203,800 pounds; of dressed beef, receipts 379,124,900 pounds, and shipments 812,076,600 pounds; of lard, the receipts aggregated 44,735,400 pounds, and shipments 268,702,900 pounds.

REAL ESTATE

The Real Estate Committee deemed it prudent and advisable, under existing circumstances, to confine its expenditures to such repairs only as were imperatively demanded by a proper care of the building and offices.

Revenue derived from rentals, janitor service, electric lights, etc., amounted to \$135,472.68, as compared with \$134,244.61 during the year 1909; \$139,263.02 received during the year 1908, and \$136,283.00 during the year 1907. The total disbursements of this department for the year amounted to \$66,289.56, as compared with \$60,528.39 during the year 1909, and \$81,844.27 disbursed during the year 1908.

WEIGHING DEPARTMENT

During the year 1910 the department weighed 302,915 cars, of which 182,546 were received into elevators, warehouses and the various manufacturing plants; 112,897 cars were shipped out; and 7,472 cars were transferred from car to car. The department weighed 64,200,335 bushels of grain to and from vessels and canal boats, and 20,987 bags of

seed. The total quantity of grain weighed, figuring on the basis of 1,250 bushels to the car, reached approximately 443,000,000 bushels, of which 378,643,750 bushels were transported by cars, and the remainder by lake craft.

We have received complaints of shortage during the year on 2,408 cars. Causes for shortage were found on 889 of these. On 303 the amounts of shortage were less than 500 pounds to the car, and on 1,014 the amounts of shortage were not stated. Deducting the number of cars on which causes for loss were located from the total number of cars reported short in weight, there remains 1,519 shortages unaccounted for. This averages one complaint for every 199.5 cars weighed, which I consider a very gratifying record, especially when the many causes for discrepancies in weights over which the weighing department has no control are taken into consideration.

The average shortage for the year on grain carried by vessel was twenty-three and four-tenths pounds on each 1,000 bushels handled. While this average is not large, being considerably less than one-half bushel per thousand bushels, yet some boats suffered more from shortage than others. This excess shortage was due in some instances to the quality and condition of the grain handled, and also to the high velocity of the wind during the loading. Many of the shortages, however, corresponded closely to Buffalo draughts, thereby suggesting the possibility of missed draughts at the unloading elevators. But no matter what the cause the boat people were compelled to bear the loss, and more or less feeling resulted. In consequence the subject of shortage, I have been informed, will be taken up at the next meeting of the Lake Carriers' Association at Detroit. For my part I hope it will be, for the weighing department never was in a better position to demonstrate the completeness of its supervision over cargo weighing and loading and the accuracy of the work being done. To begin with, our sealing equipment for boat loading has been installed and our system of sealing the scale and shipping-bin spouts is in operation, and no other port takes these precautionary measures to insure the correct delivery of the grain weighed. The use of this system makes our supervision over both the weighing and delivery of grain to vessels thorough and complete.

On account of the increased popularity of the scale-inspection branch of our service, especially among country shippers, we were compelled to add another scale inspector to our force. The department now has in its employ three scale experts; and our scale testing outfit is not equalled by the equipment of any scale company in the country. Included in our scale testing paraphernalia is a steel-yard hopper testing scale of our own design and manufacture which we use for making comparative

weighing tests. This machine has proved a decided success. During the year we tested the scales at 49 country elevators containing 108 scales. We found 64 of these scales or fifty-nine and two-tenths per cent. out of order, and corrected all but six of them. These six were in such bad order that we condemned them as beyond repair. The records of the year's work show that we tested various scales both in Chicago and at country points as follows:

530 hopper scales, of which 106 were found incorrect.

156 railroad track scales, of which 39 were found incorrect.

93 wagon scales, of which 57 were found incorrect.

21 small scales, of which 4 were found incorrect.

Included in the record of wagon-scales tested are sixteen scales belonging to the Chicago, Burlington & Quincy R. R., Chicago, Milwaukee & St. Paul Ry. and Chicago & North-Western Ry., located at different Chicago team tracks, fourteen of which were found incorrect.

We issued one circular letter during the year, which was addressed "To the Grain Shipper," and which concerned the preparing of cars for grain. This letter was well received, the railroads alone taking several thousand copies. In all we distributed about eight thousand copies of the letter.

The stealing of grain from cars in transit and in railroad yards, although materially reduced over other years, still continues to be a discredit to Chicago weights and a great annoyance to the weighing department. Our efforts during the year to eliminate this source of loss to the shippers of grain resulted in 131 arrests. Of these 44 paid fines aggregating \$521.00. \$234 of these fines were paid for receiving stolen grain. Eighty-one of those arrested were juveniles; 69 of whom were paroled to juvenile officers. The remaining 12 were sent to the John Worthy School. Six adults were discharged. In connection with the stealing of grain we endeavored to have a much needed city ordinance enacted that would prohibit out-siders from sweeping cars, but we were unceremoniously turned down by our city fathers. But we have arranged to ask the Illinois State Legislature to enact a state law against sweeping cars, and we hope to be more successful with that body.

There has been much complaint made by railroads about the way cars are being swept out at the various terminal markets. Some of the railroad officials contend that the work of sweeping at many of the terminals is not being properly done. While Chicago has not been mentioned as one of the offenders nevertheless we organized a sweeping squad, and made a series of sweeping tests at the different grain elevators here. As a whole we found the work of sweeping was being carefully done, although we found evidence of carelessness at a few of the elevators. The sweeping

tests proved of such value that we shall continue them from time to time.

The weighing department has been requested by numerous shippers and by Mr. George A. Wells, Secretary of the Western Grain Dealers' Association, to inaugurate a railroad watching service in the outlying railroad storage and inspection yards similar to that now in vogue at St. Louis. The proposed service includes an examination of each car upon its arrival in the outlying railroad yards at Chicago, the taking of seal records there, the resealing of cars, and so forth, and issuing reports of the work done for each car. Those who have taken the matter up with us state that they are willing to pay the department twenty-five cents a car for the work. We could inaugurate such an addition to our service, if the trade desire it, that should prove of great value to all concerned.

GRAIN SAMPLING DEPARTMENT

The Grain Sampling Department has been conducted under the administration of the competent and faithful services of Robert P. Kettles. The Grain Sampling Department insures the furnishing of accurate samples of grain and contributes by most cordial cooperation with the State Grain Inspection Bureau, for the attainment of accuracy and thoroughness.

During the year this Department sampled 107,826 cars of grain and the total number of bushels sampled for lake shipment aggregated 22,259,247 bushels.

The total earnings for the year amounted to \$41,510.11, and disbursements, \$36,428.56.

TRANSPORTATION DEPARTMENT

In briefly summarizing the work of your Committee and the Transportation Department for the year 1910, particular attention is drawn to the fact that the policies of the Railroad Companies to await further developments in many legislative and financial problems has materially hampered us and emphasizes very strongly the importance to this market of the continuation of the work of this Department.

Chicago a Rate Basing Point

Progress towards making Chicago a rate basing point and eliminating the use of transit is being made. This most important feature presents many difficulties. However, specific rates into Chicago from Trans-Mississippi and Northwestern Territory, and out of Chicago to Trunk Line Territory are now in effect. We have the assurance from the carriers of specific rates to Central Freight Association Territory. Furthermore, the rates **on grain products** from Chicago to Central Freight Association Territory are now specific rates instead of being based upon the Mississippi River as heretofore, thereby materially improving the position of Chicago in competition with other markets.

Chicago Rates for Chicago Industries

In 1909 the Illinois Railroad and Warehouse Commission issued an order fixing switching charges in Chicago and defining the switching district. This order was resisted by the Railways and the matter taken to the courts.

The Department has held many conferences with the Railways, and other business interests in Chicago, with a view to reaching a settlement of the difficulty and securing Chicago rates to and from Chicago industries without switching charges on shipments into or out of Chicago.

The suggested arrangement will effect an enormous saving in the cost of handling business in Chicago. A final conclusion has not yet been reached and our efforts towards bringing about this desirable improvement will be continued.

Uniform Code of Demurrage

The demurrage question in Chicago has long been a disturbing feature. During the past year, after many conferences, the Average Agreement Clause, promulgated by the Interstate Commerce Commission, has been put into effect in this market. This clause provides a plan of debits and credits that where applied has resulted in greatly reducing, and in some cases entirely eliminating, demurrage, and we are very hopeful of equally satisfactory results here.

Re-Sampling Grain

We secured a ruling from the Interstate Commerce Commission, and the Illinois Railroad and Warehouse Commission, providing the necessary time for re-sampling of inspected grain. The effect of this ruling has been of much benefit to our members in saving demurrage charges on grain requiring a re-sample.

Grain Forwarded via Lake

Considerable hard work has been devoted towards securing an equalized basis of rates from Missouri River points on grain shipped via lake through Chicago as against other lake ports. This has been an exceedingly difficult proposition to handle, is still an open question, and requires further attention.

Expediting Movement of New Corn

Through the efforts of the Department, new corn for this market is being classed as perishable property, and cars are now so way-billed and carded, materially expediting the movement. The result has been particularly gratifying, and we believe will entirely prevent a repetition of such losses as were suffered last year through delays in transit.

Before the Interstate Commerce Commission

We have found it necessary to refer many questions of importance to the Interstate Commerce Commission, and have been represented at all important hearings. The Southeastern Rate Case, or the Rosenbaum Case, involving the adjustment of rates on grain from Chicago to the Southeast, was heard early in the year, by brief and oral argument, but the Commission has not as yet rendered a decision. This case has been the subject of a great deal of effort for a long time and we now hope for an early and favorable adjustment.

Arguments were presented and brief filed on the Uniform Code of Demurrage Rules.

Extensive hearings were had on transit matters.

Various reparation claims have been prepared, filed and prosecuted before the Commission in behalf of our members.

These matters have been carried before the Commission through the Manager of our Transportation Department, and without incurring any expense whatever for legal counsel.

Ex-Lake Rates

We mentioned in our report of a year ago the discrimination from which we were suffering due to the high rates applied by the carriers east of Buffalo on grain shipped via lake. Failing to secure any relief by conference with the carriers, this honorable body approved of our application to appeal to the Interstate Commerce Commission and the case is now on trial. A careful consideration of the facts leads us to expect a favorable decision from the Commission.

The preparation of this case has involved exhaustive statistics and much labor on the part of the Department.

Grain Tariffs

The Transportation Department has a complete file of grain tariffs, comprising about 1,500 altogether, and special emphasis may be made of the fact that these tariff files and all the services of the Department are available to all members who desire to make use of them. Members are requested to report any inequalities or differences in rate adjustment that tend to discriminate or drive business away from this market.

The Department is issuing a booklet showing Illinois Proportional and Local Rates in alphabetical order that we believe will be found to be very convenient for the use of both buyer and seller. This booklet will be furnished to members at cost.

Many other subjects of importance have received necessary attention, a detailed list of which may be had upon application to the office of the Manager.

In conclusion I desire to especially refer to the earnest and conscientious work of Mr. W. M. Hopkins, Manager of the Transportation Department. All questions, whether of greater or minor importance have been handled with the greatest interest in the welfare of the Chicago market. Complete co-operation and a more thorough understanding on the part of our members of the work of the Department will be of much assistance in furthering the work and securing the greatest benefits.

The Directors desire to express to the members of the Transportation Committee their very great appreciation of their loyalty and unselfish devotion to the work of the Committee. Many meetings have been held, frequently at no small sacrifice of time, and the members have not failed to respond promptly and cheerfully whenever called upon.

LEGAL DEPARTMENT

Ten years ago the first of last August, this Association started its present crusade against bucket shops, and this seems an opportune time to review the results of these efforts.

The bucket shop seems to have first appeared shortly after 1880, when the ticker began to be generally used for the prompt distribution of market quotations. This Board as early as 1883 attempted to prevent the use by bucket shops of its quotations, but its efforts at that time were rendered nugatory by some adverse decisions of the Illinois courts.

Then for two years, beginning in 1892, your Association withdrew its quotations from the large telegraph companies with a view to forcing them to withhold its quotations from bucket shops. This was also unsuccessful.

Attempts to curb this evil were then made through the enforcement of the criminal laws, but no lasting results were thus obtained.

In 1900 the bucket shops had become very numerous. In Chicago alone there were then twenty-seven using our quotations.

In that year, despite its previous failures, this Board, at the suggestion of its attorney, embarked upon a new plan to deprive the bucket shops of its quotations. This consisted in establishing in law a property right in our quotations and securing the protection thereof from purloiners through writs of injunction. It also contemplated making the quotations—which were then given away—a source of substantial revenue.

At that time the Western Union and Postal Telegraph Companies were, under licenses from this Board collecting the quotations upon our exchange floor, and there were then in force four injunctions which prevented the Board from ousting these telegraph companies. As soon as our plan was disclosed, three more like injunctions were added. By July 1, 1900, we had succeeded in dissolving these, and in dispossessing the telegraph companies, and were, through our own employes, collecting the quotations. Contracts denying the quotations to bucket shops were then demanded by the Board from the telegraph companies. The two larger companies refused to sign such contract, and on August 1, 1900, ceased to distribute the quotations. Finding, however, that this Board was in earnest, they finally did so, and on April 15, 1901, resumed the distribution of our quotations, and thereafter gave them only to such applicants as this Board, after investigation, found not to be bucket shops.

The bucket shops, not being able to obtain them from the telegraph companies, then began stealing the quotations, and thereby an illicit trade therein arose.

To stop this the Board commenced numerous suits in the Federal courts of the Central West. In resisting these suits the bucket shops not only denied the existence of any property right in the quotations and the right of the courts to protect it by injunction, but attacked the legality of the transactions, out of which the quotations arose. This gave rise, especially upon the last question, to a marked conflict of decisions by the different Federal courts.

Thereupon the United States Supreme Court ordered two of these cases before it for review. Its decision in May, 1905, was a sweeping and far-reaching one in our favor. It is reported under the title of *Board of Trade vs. Christie*, in 198 U. S., 236. It established not only the legality of our future or time-trading, our clearing house, and our system of settlement by off-set or "ringing," but also decided that our quotations were a species of property which should be protected by injunctions. It also affirmed the legality of our contracts with the telegraph companies respecting the quotations, which had been attacked as illegal restraints upon trade.

This litigation comprised twelve suits by bucket shops against our Board or the telegraph companies distributing our quotations, and forty suits brought by our Board against purloiners of our quotations. This litigation has been in twenty-seven different courts and in twenty cities in eleven different states.

All of these cases have been finally disposed of except four which are still pending. In none of them has the Board lost. The cases still pending will ultimately be decided in favor of the Board.

In these cases permanent injunctions have been issued in favor of the Board against 248 persons, and temporary injunctions, in the cases still pending, against twenty-five persons, restraining them, either as principal or as agent, or as an officer of any corporation, from obtaining or using our quotations or any of them, or having a telegraph or other wire running into his or its office over which our quotations are passing, and from aiding or abetting, directly or indirectly, any other person in so doing, unless the person thus enjoined, or his principal or corporation, shall have first lawfully acquired the quotations in the manner provided by our contract with the telegraph companies distributing them. Our legal expenses in this litigation, including court costs, stenographers, printing, etc., fees of our regular attorney, and of sundry lawyers necessarily employed as local counsel in other cities, for these ten years have aggregated \$116,538.24, or an average of \$11,653.82 per year.

The total revenue of the Board of Trade from its quotations since April 14, 1901 (including \$16,803 still in the hands of the telegraph companies), aggregates \$382,852.00. Our revenue from the quotations at the present time is about \$38,000.00 per year.

Thus the moneys realized during these ten years from the quotations, less all legal expenses incurred in preventing their use by bucket shops, was \$266,314.00. This is \$103,943.00 more than the entire cost for these ten years of maintaining the Market Report Department, whose functions have been, not only to supervise the distribution of quotations and gather the evidence for the bucket-shop litigation, but also to provide a bureau of

investigation, to facilitate the exercise of the disciplinary powers of the Board, to resist threatened adverse legislation, to gather information respecting applicants for membership, etc.

As a result of this litigation, we are now in a position to obtain, at comparatively small expense, injunctions against any one found to be using our quotations without our approval. In other words, the plan inaugurated by the Board ten years ago has received the judicial sanction of the highest court in the land, and has been demonstrated to be a practical one to control our quotations, as well as to derive a large revenue therefrom.

Through these efforts all the large bucket shops systems in the West have either been driven out of business or been forced to confine their trading to such as is based upon stock and cotton quotations. There are now no bucket shops of any size using our quotations.

We believe also that our militant attitude has materially aided in creating in the public mind a proper conception of the evils of these institutions. Since 1906 eight states have passed more or less drastic criminal statutes against bucket shops. The Congress has also passed a drastic criminal statute for the District of Columbia.

Another result of our litigation has been a clearer public conception of the difference between bucket shops and commercial exchanges, and a better appreciation of the great aid which the latter render to commerce and in the economical marketing of the products of the farm. These as well as the legality of our present methods of making and settling trades are emphasized by the important decision of the Supreme Court of the United States already referred to.

There is now less hostility to exchanges in the public mind. Legislators have been less antagonistic. In short, we feel that despite the heavy expense it has entailed, our campaign against bucket shops has been a pronounced success.

During the last year the Attorney General of the United States, Mr. Wickersham, has been conducting a vigorous prosecution of bucket shops, and this has resulted in the closing of a large number of bucket shops operating on stock and cotton quotations throughout the East and South; also one such in Chicago. This will render the future work of this Board in safeguarding its quotations much easier.

After the Board secured an injunction against the Merchants Stock & Grain Company, F. J. Miner, and others, of St. Louis, the defendants, in disregard of the writ, continued to use our quotations; the Board then instituted contempt proceedings which resulted in a judgment imposing fines upon them amounting to \$3,500.00 and costs, and ordered that three-fourths of the fines be paid to this Board. The contemnors have

sued out a writ of error to review this judgment in the Circuit Court of Appeals, and its decision is expected soon. This should, if we win upon this appeal, have a salutary effect upon bucket shops against which injunctions have been secured.

Early in the year 1910 the Board joined with certain of its members in the prosecution of a suit in the Federal Court at Chicago against the railroads terminating here, to prevent them from putting into effect, in advance of a ruling by the Interstate Commerce Commission on the reasonableness thereof, new demurrage rules which reduced from 72 hours to 48 hours the free unloading time on carloads of grain. Judge Kohlsaat, who heard the application, however, refused a temporary injunction, and the matter has not yet been taken up before the Commission.

There is still pending a suit, mentioned in the 1909 report, to which the Board is but a nominal party, involving a controversy as to the ownership of a membership.

During the past year a personal injury suit for damages has also been begun against the Board and another defendant, which suit is still pending.

NOTE—All inspectors shall make their reasons for grading grain, when necessary, fully known by notations on their records. The weight alone shall not determine the grade.

NOTE.—Prior to the year 1820 no official records of the arrival of alien passengers were kept. It is estimated, however, that the total number arriving in the United States from the foundation of the government to the year 1820 was 250,000.

Up to the year 1856 no record was kept of immigrants in distinction from the arrival of alien passengers

Of the number of immigrants arrived during the year ended June 30, 1910, there came from
 Un'd Kingdom 98,796 Norway..... 17,538 China..... 1,968 Aus. Hungary..... 258,737
 Germany..... 31,283 Italy..... 215,537 Russia..... 186,792 Sweden..... 23,745

The total number of European immigrants for the last fiscal year was 926,291.

Of the total number of immigrants for the year, 736,038 were males and 305,532 were females.

The year ended June 30, 1907, has been the year of the greatest immigration.

Owing to the absence of law for the collection of statistics in relation to immigrants by railroads, those from the British North American possessions and from Mexico were not included from July 1, 1885, to June 30, 1895.

NOTE.—The statistics for 1870 and 1880 are derived from the United States census. The statistics for the remaining years are compiled from data collected and estimates made by Mr. Frederick E. Savard, editor of the Coal Trade Journal of New York City.
Some coal is mined in North Carolina and Rhode Island, but no figures are furnished by producing interests. A few thousand tons were mined in Idaho during 1906, 1907, 1908, 1909 and 1910. Massachusetts appeared as a coal producer in 1908, there being 50 tons mined during the year.
*Gross Tons.

NOTE.—Up to 1850 only the aggregate valuations in the several counties were reported to the State officers, and from 1852 to 1857, inclusive, a few counties returned only the aggregates; hence the details of real estate and personal property valuations are not complete for those years. In 1867 and 1868 the details of valuation are not entirely correct, owing to changes by the operation of the equalization law. Since 1868 the valuations are as equalized. The total valuations in each of the several years are correct and official.

The valuations for 1873 as equalized are largely in excess of any previous year. In 1874 some changes were made in the manner of equalizing the assessments, resulting in reducing all the valuations, especially those of railroad property.

The valuations for 1899 to 1908 inclusive are the one-fifth of the full fair cash valuations of property as determined by the Assessing officers, under the requirements of the Assessment Act of 1898. The valuation for 1909 and subsequent years is the one-third of the full fair cash valuations of property as determined by the Assessing officers, under the requirements of the Assessment Act of 1898, as amended by an Act approved June 12, 1909.

The State debt, as noted, represents it as it stood on the 1st of January in each of the several years to 1869; in 1869 and 1870, as it stood December 1; in 1871, as it stood December 31; from 1872 to 1879, as it stood December 1.

CHICAGO REAL ESTATE AND PERSONAL PROPERTY.

Assessed valuation of real and personal property in the City of Chicago, by Towns, for 1910.

Beginning with the year 1909, in accordance with an act passed by the State Legislature increasing the assessed valuation of property from one-fifth to one-third of the full value, the assessed valuation of property for tax purposes, herewith given, as assessed by the Board of Assessors, then reviewed by the Board of Review and finally equalized by the State Board of Equalization, is one-third of the assessed actual, or full value.

COMMISSIONS FOR BUYING OR SELLING, OR
FOR BUYING AND SELLING.

SEC. 4. A. The following rates of commission, being just and reasonable, are hereby established as the minimum charge that shall be made by members of this Association for the transaction of the business specified in this section:

B. For the purchase, or for the sale, or for the purchase and sale, by *grade alone*, of wheat, corn or oats, to be delivered in store, either for immediate or for future delivery, one-eighth of one cent per bushel.

C. For the purchase, or for the sale, or for the purchase and sale, by *grade alone*, of rye, barley or flaxseed, to be delivered in store, either for immediate or for future delivery, one-quarter of one cent per bushel.

F. For the purchase, or for the sale, or for the purchase and sale of D. S. short ribs or D. S. extra short clears, twenty-five cents per 1,000 pounds.

G. It is hereby provided that upon transactions specified in the foregoing paragraphs of this section which are made for the account of members of this Association, or for firms one of whose general partners is a member, or for corporations entitled under Section 8 of this rule to members' rates, one-half of the foregoing minimum specified rates shall be charged and shall be the minimum rates in such cases.

H. It is further provided that to members who personally do their own buying and selling, but who clear their trades through other members, the minimum rates of commission on all transactions opened and closed *within ten days* shall be twenty-five cents per 1,000 bushels of grain, one cent per package of pork, three dollars per lot of 250 tierces of lard, and five cents per 1,000 pounds of D. S. short ribs or D. S. extra short clears.

It is further provided that the minimum rates of commission on all such trades *as are not actually closed within the prescribed limit of ten days*, shall be members' rates; but the clearing member may pay the principal the rates of brokerage prescribed in Section 2 of this Rule, as compensation for executing such trades. It is expressly understood that all such transactions shall be for the personal account of the member, firm or corporation for whom the trades are cleared, and in no case, directly or indirectly, on behalf of any other person, either wholly or in part.

Hence, if trades in grain are opened and closed within 10 days, the principal shall pay the clearing member (per 5,000 lot)..... \$1.25

If trades in wheat, corn or oats are opened, but not closed within 10 days, the principal shall pay the clearing member (per 5,000 lot).....\$3.12½

J. Trades made under the foregoing paragraph, where one side of such trades only is executed by the principal, and the other side either by the clearing member or broker, whether closed within the prescribed limit of ten days or not, shall be subject to members' rates of commission, but the clearing member may allow the principal the minimum rates of brokerage on the portion of the trades executed by the principal. If a broker is employed to execute any portion of such trades, the party employing such broker shall pay the brokerage thus incurred, the minimum rates for such service being those prescribed in Section 2 of this Rule.

Hence, on trades made in wheat, corn or oats, whether opened and closed within 10 days or not, the principal shall pay the clearing member (per 5,000 lot). \$3.12½

Less brokerage (one side being executed by the principal)..... .50 \$2.62½

The same principle shall apply in construing commission rates to be charged for executing similar transactions in all other commodities dealt in under the rules of this Association.

K. Members cannot clear through other members as contemplated in paragraphs H and J any trade that is not for their own account; but members receiving orders may execute them and turn over any resulting trades, with the name of the customer, to other members, in which case the latter shall pay the former the minimum brokerage rates as compensation for executing the order.

It is hereby provided that upon transactions specified in the foregoing paragraphs of this section which are made for the account of members of this Association, or for firms one at least of whose general partners is a member of this Association, or for corporations entitled under Section 8 of this Rule to members' rates, three-fourths of the foregoing rates shall be the minimum rates charged.

F. Whenever members of this Association, acting as principals or agents, shall have made a purchase of any of the property mentioned in this section, to arrive, or in transit, such members shall notify in writing, the party from whom such purchase was made, of the price and terms of such purchase on the same day upon which the transaction takes place.

These requirements shall apply only to shipments from country points, either to Chicago or to other markets, if purchased in Chicago market, whether such property is to be shipped or is in transit.

BUYING OR SELLING VESSEL LOTS.

SEC. 6. A. The following rates of commission, being just and reasonable, are hereby established for receiving and selling, or for buying and shipping the following described property by vessels:

On wheat, rye, barley or flaxseed.....	$\frac{1}{2}$ cent per bushel
On corn or oats.....	$\frac{1}{4}$ " " "

These shall be the minimum rates for both members and non-members.

ADDITIONAL CHARGES.

SEC. 7. A. In addition to all the rates of commission prescribed by this rule, there shall be charged all legitimate expenses incurred in handling and caring for the property involved, including storage, insurance, inspection, weighing. Cost of sampling shall **not** be considered a charge against the property.

CORPORATIONS.

SEC. 8. A. Any corporation having for one of its executive officers and stockholders a member of this Board, may submit to the Board of Directors, or a committee appointed for such purpose, a full disclosure of the relations of such member to such corporation, and if such member shall, upon investigation, be found to be a real bona fide and substantial executive officer and stockholder of such corporation, and that such relation is not created for the sole purpose of obtaining members' rates, such corporation shall be thereafter, and so long as such member shall remain such officer and stockholder, entitled to members' rates provided in this rule; *provided*, that for the purpose of this rule, not more than one corporation can be represented by the same member of this Association as its executive officer.

Whenever any such corporation shall be so found entitled to members' rates, it shall, whenever requested by the Board of Directors, or such committee, make a full disclosure of the then existing relations of such member to such corporation. If it shall refuse so to do, its right to members' rates shall thereupon cease.

B. On all transactions for the account of any officer, agent, employe or stockholder of any such corporation, not a member of this Association, such corporation must exact non-members' rates of commissions.

C. No firm or corporation shall enjoy members' rates by virtue of a membership in the Chicago Board of Trade in the name of one of its members, if a firm, or in the name of one of its executive officers, if a corporation, if said member of the Board shall at the same time be a member of a firm, or president or secretary of a corporation, represented in the membership of the Clearing House of the Board of Trade. One membership shall only secure members' rates to one firm or one corporation.

CONSTRUCTIONS.

SEC. 9. A. On all transactions where the purchase or sale of cash grain is made contingent on the price ruling for future delivery, and where the purchase or sale of the future delivery is at once accomplished, fixing by such transaction the value of the cash grain so bought or sold, it shall be construed that the purchase or sale of the future delivery shall be a part of the cash transaction. Should the purchase or sale of grain for future delivery upon which the cash transaction is based be held subject to the convenience or subject to the orders of the parties with whom such transaction is made, then all such business for future delivery shall be subject to the regular rates of commission as prescribed in this rule.

B. In no case shall the aggregate amount of brokerage allowed on any transaction be such that the net commission to members on such

transaction shall be less than the minimum rates prescribed in Paragraph H, Section 4 of this rule, for clearing trades for members.

C. Members cannot abate or divide with other members the rates prescribed in Paragraph H, Section 4 of this rule, for clearing.

D. A firm whose only member of the Association is a special partner in such firm is not entitled to members' rates.

E. A firm or a corporation shall charge regular rates of commission on all transactions in which only a part of such firm or corporation appears as a principal.

F. Any member who, or whose firm or corporation, shall be convicted by the Board of Directors of a violation of the provisions of this rule, or of any evasion thereof by making rebates in prices, by making any contract or observing any contract already made, by furnishing a membership in this Exchange, by giving any bonus, gift, donation or otherwise, or shall purchase or offer to purchase any grain, seeds, provisions or other commodities consigned to him, them, or it, for sale, or by rendering any other service or concession whatsoever, with the intent to evade in any way directly or indirectly the regular rates of commission or brokerage established by this rule, shall be expelled from this Association. Free telegraphic communication, however, shall not be construed as a violation of this rule.

G. The Board of Directors is authorized to offer a reward of not more than twenty-five hundred dollars to any person who shall furnish evidence that does convict any member, firm or corporation of a violation of this rule.

RULE XV.

SECTION 1. No appropriation of money or other property of the Association shall be made except to defray its legitimate business expenditures or to promote the purpose of its organization.

M. to 1:15 o'clock P. M., or upon any Saturday except from 9:30 o'clock A. M. to 12 o'clock M., nor on any day or that part of any day on which the Board shall hold no business session; it being the object and intent of this rule that all such trading which may tend to the maintenance of a public market shall be confined within the hours above specified. On any alleged violation by a member of this Association of the provisions of this rule which shall be brought to the attention of the President of the Board by creditable report, it shall be the duty of the President to cause said member to be summoned before the Board of Directors, and if the party shall be found guilty of such violation of the rule, he shall be suspended for not less than one month nor more than one year, and for a second violation he shall be expelled.

of price.

SEC. 3. All contracts and offers to contract for grain for future delivery shall be at one figure of price, having as the multiple of price one-eighth of a cent per bushel; provided, however, that offers and contracts may be made to include one-half the total amount of each contract at any given price, and the remainder of said contract at a price one-eighth of one cent per bushel higher or lower than the other moiety and not otherwise; the same principle to apply on transactions for the future delivery of provisions; and every infraction of this rule shall be deemed misconduct and punishable by suspension at the discretion of the Board of Directors.

In case any member neglects or refuses to indorse a certificate of deposit to the party entitled to receive the money thereupon when all contracts upon which the deposit is applicable are settled, and all money due upon such contracts has been paid, he shall be liable to a penalty of one per cent. per day on the amount of such certificates, for every day such refusal or neglect is continued; and for refusal to promptly pay such penalty, the party may, upon due complaint, be suspended from all privileges of the Board until the same is paid. In case it should occur that by reason of changes in the market, or of delivery upon, or the settlement of a portion of the contracts upon which security has been deposited and to which such security is properly applicable under this Rule, that a larger sum remains on deposit than is contemplated by Section 1 of this Rule upon then existing unadjusted contracts between the parties, and either party to such contract should refuse to release such excess of deposit, the President of the Board is authorized, upon a representation of the facts and admission or proof that such excess ought to be released, to order such release

SECTION 1. All deliveries upon contracts for grain or flax seed, unless otherwise expressly provided, shall be made by tender of regular warehouse receipts, which receipts shall have been registered by an officer duly appointed for that purpose. All such warehouse receipts shall be made to run five days from date of delivery on regular or customary storage charges, which regular or customary charges shall follow such warehouse receipts and be chargeable upon the property covered by the same, and shall be issued by such houses as have complied with the Rules of the Board of Trade and the Regulations and Requirements of the Board of Directors, and have been declared regular warehouses for the storage of grain or flax seed by said Board of Directors; and it shall be the duty of the Board of Directors, prior to the first day of July in each year, to inspect all warehouses, the proprietors or managers of which shall apply to have their receipts declared regular for delivery on contracts under the Rules of the Board of Trade, and no warehouse shall be declared a regular warehouse unless it is conveniently approachable by vessels of ordinary draft and has customary shipping facilities, and unless the storage rates on all grain or flax seed in such warehouse in bulk and in good condition, shall not be in excess of three-quarters ($\frac{3}{4}$) of one cent per bushel for the first ten days or part thereof, and one-fortieth (1-40) of one cent per bushel for each additional day thereafter until from and after July 1, 1910, when the storage rates shall not be in excess of one (1) cent per bushel for the first ten days or part thereof, and one-thirtieth (1-30) of one cent per bushel for each additional day thereafter so long as such grain or flax seed remains in good condition, and unless the proprietors or managers of such warehouse are in good financial standing and credit, and are carrying on and intend to continue to carry on the legitimate business of public warehousemen under the laws of the State of Illinois and in accordance with the Rules of the Board of Trade of the City of Chicago and the Regulations and Requirements of the Board of Directors and until the

proprietors or managers of such warehouse shall file a bond with ^{Bond, sufficiency of.} sufficient sureties in such sum and subject to such conditions as may be deemed necessary by the Board of Directors, under the Rules of the Board of Trade and the Regulations and Requirements of the Board of Directors in reference to warehouses.

And furthermore, the proprietors or managers of such warehouse shall be required to sell their regular contract grades of grain or flax ^{Shipments by proprietors—only} seed in the Chicago market only, and shall not ship any grain from ^{“off grades.”} any regular warehouse, of which they are proprietors or managers, except those grades which are denominated and understood to be “off grades”; *provided*, however, that the Board of Directors of the Board of Trade may, upon application, grant to such elevator proprietors or managers the privilege of shipping such quantity of grain from their elevators as will sufficiently relieve such elevators from being overloaded, or as will maintain the condition of such grain; and furthermore, the proprietors or managers of such warehouse shall be prohibited from buying grain at any non-competing points.

Whenever application shall be made by the proprietors or managers of any warehouse to have the same declared a regular warehouse for the storage of grain and flax seed under the provisions of this Rule (except in cases of renewal on the first day of July in each year, as ^{Requirement for removal of grain from warehouses applied to be regular.} hereinbefore provided) any grain or flax seed that may be contained in said warehouse at the time of such application, shall be required to be removed from said warehouse, when after it shall have been graded and inspected according to its quality and condition then existing by the duly constituted authorities, such grain or flax seed may then again be received into said warehouse and receipts issued therefor shall be registered and dated upon the day when such grain or flax seed is again actually received into said warehouse.

The chief inspector of grain of the State of Illinois may, upon ^{Supervising inspector.} request of the Board of Directors of the Board of Trade, appoint a supervising inspector who shall so supervise the storage and distribution of grain and of flax seed in such warehouse that no discrimination or selection can be made in the quality or grade of grain or flax seed in the delivery of such grain or flax seed.

Warehouse receipts issued by warehouses so declared regular by the Board of Directors shall be regular for delivery on contracts under ^{Warehouse receipts.} the Rules of the Board of Trade so long as the said warehouse shall continue to be a regular warehouse, but the term for which any warehouse is declared a regular warehouse to issue such receipts shall be ^{Term of regular warehouse.} limited to and expire on the first day of July in each year. No receipts issued on grain received in any warehouse shall be regular for delivery under the Rules of the Board of Trade after that date unless the warehouse upon which it has been issued has again been declared a regular warehouse by the Board of Directors; *provided*, however, that receipts issued before the first day of July by warehouses which have been ^{Life of warehouse receipts.} regular warehouses during the preceding year, but which have not been declared regular for the succeeding year, shall be regular for delivery upon such contracts for six months after the first day of July; but nothing contained herein shall prevent the Board of Directors from declaring any warehouse, or the receipts thereof, irregular at

any time for violation or non-compliance with the laws of the State of Illinois or any of the Rules of the Board of Trade or of the Regulations and Requirements of the Board of Directors.

Emergency clause.

Provided, that the Board of Directors shall have power, when in their judgment an emergency exists requiring more storage room than can be supplied by the regular elevator warehouses, to declare any storehouses, vessels, or places suitable for the storage of grain or flax seed within the city limits—wherein the cost of delivery to vessels or railroad cars shall not be greater than such as is made by the regular elevators for the same service—to be regular places for the storage of grain deliverable under the Rules of the Board of Trade.

Limitation of aggregate capacity of warehouses made regular under emergency.

And *provided further*, that in case it shall happen that at any time there shall be no warehouses which shall be regular warehouses for the storage of grain and flax seed, then the Board of Directors may declare any warehouses suitable for the storage of grain or flax seed, whose aggregate capacity shall not exceed twenty-five million (25,000,000) bushels, regular warehouses for the storage of grain or flax seed, upon such terms and for such period as the Board of Directors in its discretion may deem necessary or proper, and the warehouse receipts issued by warehouses so declared regular under this proviso, shall be regular for delivery on contracts under the Rules of the Board of Trade, in the same manner as if issued by warehouses declared regular under the foregoing provisions of this section in regard to declaring warehouses regular for the term ending on the first day of July in each year.

All complaints against elevator proprietors under this section shall be heard and decided by the Board of Directors of the Board of Trade of the City of Chicago.

M. and 11:00 o'clock A. M., at the office of the clearing member who has the property bought, or shall be made in the Exchange Hall, or in such other place as may be designated by the Board of Directors between the hours of 1:30 and 2:00 o'clock P. deliveries shall be made by a notice in writing, which notice shall state on its face the place of business of its issuer. Such notice shall state in detail the warehouse receipts proposed to be delivered, and in the case of provisions in packages, or lard, the packer's brand, and the contract price on which delivery is proposed to be made, also the net cash value (deducting extra storage) of said property at the market price. Twice each day at stated hours, it shall be the duty of the Secretary to post or cause to be posted, in a suitable place, the market price of such grain or provisions as are deliverable on time contracts. The first price posted shall be applicable to deliveries between 9:30 o'clock and 11:00 o'clock A. M. The second price posted shall be applicable to deliveries between 1:30 and 2:00 o'clock P. M. Such delivery notice may be passed from one purchaser to another before 11:00 o'clock A. M., or before 2:00 o'clock P. M., as the

case may be, by indorsement thereon by the seller, of the name of the party to whom it is to be delivered, together with the contract price at which the property is sold, and also the time at which the delivery is made. In the case of deliveries made outside of the buyer's office, as provided above, the first delivery of such notice shall be made before 1:35 o'clock P. M., and any party holding such notice longer than five minutes as shown by the indorsement on same of the time of the previous delivery, shall not be permitted to deliver it. Any person indorsing upon said notices any fictitious name or the name of any person, firm or corporation other than that of the person, firm or corporation to whom he tenders the notice upon a bona fide sale of the property mentioned therein, actually made by himself, or the firm, or the corporation he represents, or upon the written order of another member, firm, or corporation on whose behalf he makes such tender, or who shall make any alteration therein, or any substitution of property other than that originally named in the notice by the original issuer thereof, shall be deemed guilty of gross fraud, and, if a member, he shall be suspended or expelled, at the discretion of the Board of Directors; and if not a member, such person shall be permanently excluded from the rooms of the Association. All delivery notices issued under this rule shall be consecutively numbered by the parties issuing them. Notices of readiness to deliver property as herein provided, and all subsequent transfers of such notices, shall be deemed and held to be a valid and sufficient tender of property, on time contracts, under the Rules of this Board of Trade, provided the property is actually delivered, or is shown to have been ready for delivery, in the manner and upon the terms herein provided. It shall be the duty of the party regularly holding such notice at 2:00 o'clock P. M., to present the same at the office of the issuer before 2:30 o'clock P. M., and of the party regularly holding such notice at 11:00 o'clock A. M. to present the same at the office of its issuer before 11:30 o'clock A. M. of the same day, together with a certified check on some Chicago bank in good standing, or other satisfactory payment for the net amount due for the property represented by any or all of said notices, at the market price; and upon tendering said notice, or notices, with payment, at the office of its issuer, the holder of said notice or notices, shall be entitled to receive the property represented by same. All differences due from, or to parties to such delivery shall be paid upon the basis of a full delivery, and no more, and each purchaser receiving notice of delivery, shall be responsible to the seller from whom the notice was received, for the difference between the price actually paid for the property and their contract price. In cases where the seller's contract price is less than the price actually paid for the property, such seller shall be responsible to the purchaser to whom he delivered the notice, for the difference. All such differences shall be due and payable immediately upon the delivery and payment for the actual property; it being the duty of each person transferring the delivery notice to ascertain what price was actually paid for the property.

before 11:00 o'clock A. M., shall be delivered in the Exchange Hall, or such other place as may be designated by the Board of Directors, between the hours of 8:30 and 9:15 o'clock A. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified for similar deliveries after 11:00 o'clock A. M. The delivery

M., except that it shall state the net value (deducting extra storage) of the property at the closing market price on the last business day of the previous month, for the delivery on which the property is tendered, which price shall be posted in a suitable place immediately after the close of the market. The first delivery of the notice shall be not later than 8:35 o'clock A. M., and it shall be the duty of the party regularly holding such notice at 9:15 o'clock A. M. to present the same at the office of its issuer before 11:00 o'clock A. M. of the same day, together with a certified check on some Chicago bank, in good standing, or other satisfactory payment, for the net amount due for the property represented by said notice, as hereinbefore provided, and upon tendering said notice with payment at the office of the issuer, the holder of such notice shall be entitled to receive the property represented by the same.

Mode of settlement. All differences between the price paid for the property and any contract prices involved in its delivery, due to or from parties to such delivery, shall be adjusted and paid in the same manner and with the same liabilities as in the case of delivery made under this section between 1:30 and 2:00 o'clock P. M. In case property represented by

Default either of the delivery notices mentioned in this section is not called and paid for as herein provided, it may be held by the issuer of the notice, for and at the expense for storage, interest, insurance and other risk of the party whom it may concern, until 12:00 o'clock M. of the next business day, at which time it shall be sold in open market for account of whom it may concern; or it may be sold, if the notice was delivered before 9:15 o'clock A. M., or before 11:00 o'clock A. M., at any time between 12:30 o'clock P. M. of that day and 12:00 o'clock M. of the next business day. If the notice was delivered between 1:30 o'clock P. M. and 2:00 o'clock P. M., it may be sold at any time between the beginning of trading hours and 12:00 o'clock M. of the next business day. The party holding the property shall, however,

Notification on default. notify the party to whom he delivered the original delivery notice, before 2:00 o'clock P. M. of the same day of the default, if the delivery notice was delivered before 9:15 o'clock A. M. or before 11:00 o'clock A. M.; or before 4:00 o'clock P. M., if the delivery notice was delivered between 1:30 o'clock P. M. and 2:00 o'clock P. M., such notice of default to be in writing; and each purchaser receiving said notice of default shall in turn deliver the same, without delay, to the party to whom he passed the original notice of proposed delivery. All expense and

Responsibility of defaulting party. risk of carrying property defaulted on, including a commission of one-quarter of one cent per bushel on grain, and one-quarter of one per cent on the market value of provisions, shall be payable to the party required to make resale, by the party to whom he had the property

sold, he to be reimbursed by the one to whom he delivered the notice of delivery and so on until it is finally paid by the party in default. And in case of such default and resale of property all differences shall be adjusted as hereinbefore provided, on the basis of the price at which the property shall have been resold. All parties having property due them on time sales shall be present, or shall be represented by an authorized employe, in the Exchange Hall, or such other place as may be designated by the Board of Directors, between the hours of 1:30 and 2:00 o'clock P. M. of each business day, and on days when the Board adjourns at 12:00 o'clock M., between the hours of 12:30 and 1:00 o'clock P. M., and on the first business day of each month between the hours of 8:30 and 9:15 o'clock A. M.; and admission to the Exchange Hall, or such other place as may be designated by the Board of Directors, shall be denied all parties after 1:30, 12:30 o'clock P. M. or 8:30 o'clock A. M., as the case may be. Any property which cannot be delivered owing to the absence of the buyer from the Exchange Hall, or such other place as the Directors may have designated for the purpose of delivery, may be sold out by the party having same sold to such absentee, as hereinbefore provided in cases of default; all expenses and risk of carrying the property, commissions, etc., shall be paid by the absentee, the same as in case of default; provided, however, such property shall not be sold until the absentee has had notice in writing, either delivered to him in person, to his business representative, at his place of business, or left at the Secretary's office in case he has no regular place of business, that the property was ready for delivery under this Rule on his contract. In case it should appear on complaint duly made to the Board of Directors that any member has been guilty of issuing a notice of readiness to deliver property as herein provided, who had not the property mentioned in such notice, in his control or possession at the time of issuing such notice, or, having issued such notice, shall thereafter dispose of the property, except as herein provided, or who refuses to deliver up such property when demanded, as provided for under this Rule, such party shall be deemed guilty of gross fraud, and shall be suspended or expelled from membership in this Association, under the provisions of Rule IV.

Provided, however, that on all Saturdays when there is a regular business session of the Association, all deliveries shall be made in the Exchange Hall; a morning delivery between the hours of 8:30 o'clock and 9:15 o'clock A. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified for similar deliveries after 11:00 o'clock A. M. The delivery notice shall be of the same form and character in all respects as that prescribed for deliveries between 1:30 and 2:00 o'clock P. M., except that it shall state the net value, deducting extra storage of the property at the closing market price on the immediately preceding business day, for the delivery on which the property is tendered, which price shall be posted in a suitable place immediately after the close of the market. The first delivery of the notice shall not be made later than 8:35 o'clock A. M., and it shall be the duty of the party regularly holding such notice at 9:15 o'clock A. its issuer before 11:00 o'clock A. M. of the same day, together with certified check on some Chicago bank in good standing, or other satisfactory payment, for the net amount due for property represented by said notice, as hereinbefore provided; and upon tendering said notice with payment at the office of the issuer, the holder of such notice shall be entitled to receive the property represented by the same; and also, on such Saturdays, as fall on the last business day of the month when there is a regular business session of this Association, an afternoon delivery between 12:30 and 1:00 o'clock P. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified in similar deliveries after 11:00 o'clock A. M. The delivery notice shall be of the same form and character in all respects as that prescribed for deliveries after 11:00 o'clock A. M. The first delivery of the notice shall not be later than 12:35 o'clock P. M., and it shall be the duty of the party regularly holding such notice at 1:00 o'clock P. M. to present the same at the office of its issuer before 11:00 o'clock A. M. of the next following banking day, together with certified check on some Chicago bank in good standing, or other satisfactory payment, for the net face value of the property represented by said notice, without adding anything additional for interest or insurance, or without deducting any additional storage for the period between the time of delivery and the time of actual payment.

And provided further, that on the last business day of any month, when deliveries of articles mentioned in this Section are made after 11:00 o'clock A. M., the Secretary of the Board, or any person acting under his direction, shall have the power to extend the time for such deliveries from 2:00 o'clock P. M. (if on a Saturday, from 1:00 o'clock P. M.), as often and to such time during that day as in his judgment it may be necessary to enable all, who are prepared to do so, to tender or receive delivery notices. When any extension of time is made under this proviso, it shall be announced in the Exchange Hall, or in such other place as may be designated by the Board of Directors for the purpose of making deliveries, on or before the expiration of the time hereinbefore stated for the termination of such deliveries; in the event of the extension of the time for deliveries as herein provided, wherever the time stated in this rule would be affected by such extension, such time shall in all cases be correspondingly extended.

It is the object and intent of this Section that all contracts for the purchase and for the sale of commodities mentioned therein shall be carried out in absolute good faith, it being expressly understood that in construing this Section its purely technical provisions—the principal purpose of which is to facilitate deliveries—must not be used as a pretext to evade the obligations of a contract. Any violation, however, of any of the provisions of this Section with intent to thwart or impede deliveries shall be deemed dishonorable conduct under the provisions of Section 9 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

SEC. 3. The Board of Directors may prescribe all necessary regulations and requirements for warehousing all kinds of property (other than grain) deliverable by warehouse receipts.

SEC. 4. It shall be the duty of the Board of Directors, under this Rule, to publish annually, or oftener if necessary, by posting on the bulletin of the Exchange, the names of all elevators and other warehouses conforming in all respects to prescribed requirements of said Board; and to report immediately to the Association, by posting as above, any irregularity in the management of such elevators or warehouses, or any fact calculated to discredit or impair the value of warehouse receipts of any such elevators or warehouses, as the same shall come to their knowledge.

SEC. 14. To determine the tare of lard, the package shall first be weighed gross, the lard then removed, and the empty package subjected to dry heat and drained, the empty package to be then weighed and its weight deducted from the gross weight. The difference so obtained shall be considered the net weight of the lard.

Weight of
lard in tierces.

SEC. 15. In case lard in tierces be delivered of a weight more or less than 340 lbs. net per tierce, the shortage or excess shall be settled for at the current market price, which for deliveries before 11 o'clock, shall be considered as the posted price of the previous day, but the full number of packages contracted for shall be delivered. To take effect on and after January 1, A. D. 1900.

SEC. 17. The standard net weight of meats packed in boxes shall be between 475 and 525 pounds for each box, and in all settlements or deliveries of boxed meats an average of 500 pounds net per box shall be made the basis for settlement, and the excess or shortage from said average shall be settled at the market value of the property delivered at the time of its delivery. But in case of delivery the full number of packages contracted for must be delivered. **Standard net weight of meats in boxes.**

SEC. 18. Long clear sides shall not average less than forty-five (45) pounds; short clear sides shall not average less than thirty-five (35) pounds; and extra clear sides shall not average less than thirty (30) pounds nor more than sixty (60) pounds, to be a regular delivery on contracts. All dry salted meats, deliverable on contracts, shall be weighed in 25,000 pound lots, and the Inspector's certificate shall specify that they were so weighed; any two (2) lots of 25,000 pounds each may be of different averages, but must be of the same kind of ribs and in the same warehouse. Such shall constitute a regular delivery on sales of 50,000 pounds. **Shoulders.**

To take effect on and after January 1, A. D. 1907.

SEC. 19. Upon examination of dry salted meats, either in bulk or for boxing, by an official Inspector, if over 10 per cent is rejected the Inspector shall not be required to issue a certificate of inspection for the same. **Limit on rejected meat to be regular.**

To take effect on and after January 1, A. D. 1900.

SEC. 20. On each reinspection of dry salted short ribs or dry salted extra short clear sides, for a regular delivery, the warehouse receipt covering the same shall be canceled and the property delivered on a new warehouse receipt.

parts of any one lot of flour inspected by him, a part of which is sound and a part unsound, or when it inspects two or more grades. When flour is inspected by sample, the certificate shall mention its condition, as well as its relation to the sample. When flour is unsound the Inspector shall state in the certificate the character of the unsoundness, as *musty, hard sour, soft sour, unsound, or slightly unsound*, and the number of packages of each description, and also, when practicable, the number of packages that may be so stained or out of condition as to depreciate the market value of the flour. In case the flour has been overhauled and cleaned on account of having been wet, and the Inspector shall deem such overhauling in any way damaging to the market value of the flour, he shall note in his certificate "wet and cleaned." Flour in round-hoop barrels and jute sacks shall, in absence of any special agreement, be considered as regular in deliveries. All packages of flour which may be found largely deficient in weight, from bad order or any other cause, shall not enter into the average, but their weight shall be separately ascertained and certified to by the Inspector. RECOMMENDATIONS.

I.

The Committee on Flour Inspection recommend to millers and shippers of flour the following requirements of standard sacks: Flour in sacks, requirements.

NO. 140—JUTE EXPORT SACKS

Shall be from the best material, double stitched, not using less than an equivalent to 40x49 inch mangled or craped finished material, weighing not less than 12 ounces per yard of 40 inches in width, or 15 ounces for the complete bag. If from starched or sized material, the complete bag should not weigh less than 16 ounces.

NO. 280—JUTE EXPORT SACKS

Shall be from the best material, double stitched, not using less than an equivalent to 50x63 inch mangled or craped finished material, weighing not less than 15 ounces per yard of 50 inches in width, or 25 ounces for the complete bag. If from starched or sized material, the complete bag should not weigh less than 26½ ounces.

Seamless jute sacks must be from same weight and quality of material, etc., but require 4 per cent less material, and may weigh 4 per cent less.

140 POUND COTTON EXPORT SACKS

Shall be double stitched, best Twill Drill, Osnaburg or Duck, free from starch or sizing, using of Twill or Drill not less than an equivalent to 40x47 inches, or, if Osnaburg or Duck, not less than 37½x51½ inch material, the complete bag weighing not less than 9½ ounces.

II.

How to close sacks.

The Committee on Flour Inspection also recommend to millers and shippers of flour in sacks to be inspected in this market, that in closing the sack the mouth edge of the sack be turned in without rolling, and sewed with a single seam, the stitches to be at least $1\frac{1}{2}$ inches apart. (See Fig. 1.) This will allow the Inspector to insert the trier between the stitches without making holes in the cloth.

FIG. 1.

III.

How to load sacks.

The Committee on Flour Inspection further recommend to millers, shippers of flour, and railway agents, that in loading cars the following instructions be observed:

One hundred and forty pound sacks should be piled in two tiers lengthwise of the car, the mouths of sacks placed toward center of car (see Fig. 2), leaving the space between the tiers of sacks in the center of the car free and clear for the convenience of the Inspector.

The sacks of flour should be piled as follows: The sacks on the floor to be placed four inches from the side walls of car, and sacks so piled as to gradually incline to the walls of the car until the top rows press strongly against the said walls, as shown in Fig. 2.

FIG. 2.

Unless these recommendations be complied with the Inspector will charge for the labor necessary to put the flour in proper position for inspection.

RULES

Governing the Inspection of Grain

IN THE STATE OF ILLINOIS

IN FORCE ON AND AFTER NOVEMBER 19, 1909.

The following are the rules adopted by the Board of Railroad and Warehouse Commissioners, establishing a proper number and standard of grades for the Inspection of Grain, as revised by them; the same to take effect on and after the 19th day of November, 1909, in lieu of all rules on the same subject heretofore existing.

ORVILLE F. BERRY, Chairman, Carthage, Ill.

BERNARD A. ECKHART, Chicago, Ill.

JAMES A. WILLOUGHBY, Belleville, Ill.

Commissioners.

EXTRACTS FROM THE RULES

PREScribed BY THE BOARD OF RAILROAD AND WAREHOUSE COMMISSIONERS FOR THE ADMINISTRATION OF THE DEPARTMENT OF GRAIN INSPECTION AND WAREHOUSE REGISTRATION IN THE STATE OF ILLINOIS, AND IN FORCE FROM AND AFTER NOVEMBER 19, 1909.

ATTEMPTS AT FRAUD OR INTERFERENCE

All persons employed in the inspection of grain shall promptly report to the Chief Inspector in writing all attempts to defraud the system of grain inspection established by law, and all instances where warehousemen shall deliver or attempt to deliver grain of a lower grade than that called for by the warehouse receipt.

They shall also, in the same manner, report all attempts of receivers or shippers of grain, or any other person interested therein, to instruct or in any improper way to influence the action or opinion of any Inspector in the discharge of his duty; and the Chief Inspector shall report all such cases to the Commission.

RULES

All grain in store in any warehouse of Class "A" at the time any amendment to the established rules of inspection (affecting such grain) may hereafter go into effect shall be inspected out (in satisfaction of warehouse receipts dated prior to that time only) in accordance with the rules as they stood prior to such amendment.

No claim for damages on account of error in the inspection of any lot of grain (except grain inspected from Public Warehouses in accordance with law) will be entertained or allowed by the Board of Railroad and Warehouse Commissioners, unless complaint of such inspection shall be made to the Chief Inspector before the grain in question shall be removed from the car in which it is inspected, or before it shall leave the jurisdiction of the department.

Grain transferred from the car in which it was inspected to another must be inspected after transfer to entitle the owner to have any claim arising thereunder considered by the Board of Railroad and Warehouse Commissioners.

RULE 1.

Failure to report for duty unless properly excused will be deemed a surrender of the position held by the absentee and no compensation will be allowed for days so absent.

RULE 2.

Deputy Inspectors, Chief Samplers and Helpers are especially instructed to use all due care in cases where it becomes necessary to remove boards to obtain ingress into cars in order to properly inspect or sample the grain in such cars, to replace all such boards removed in such a manner as to prevent leakage or waste of grain from cars. It will be the duty of all inspectors and Chief Samplers to make a record of defective and leaky condition of cars and grain doors and to report the same to the Chief Grain Inspector on blanks especially prepared, showing the location of leakage and such other information as would be of service to the receiver and the shipper of grain.

RULE 3.

EARLIER HOURS.

When the receipts are large, and the interests of the trade require an earlier inspection, all Deputy Inspectors, Chief Samplers and Helpers assigned to duty on the track will begin work at as early an hour as practicable.

RULE 4.

EVENING WORK.

Inspectors stationed at elevators will, when necessary to complete the cargo or shipment upon which they may be engaged, remain on duty after regular hours and as late in the evening as they can see to inspect grain safely. Compensation for such services is provided in Rules 13 and 14 of the Railroad and Warehouse Commission.

RULE 5.

WET WEATHER AND DARKNESS.

No inspector stationed at an elevator is authorized to inspect out of store after dark or in wet weather, except on receipt, personally or through the office of the Chief Inspector, of an order written upon the printed blanks furnished by the Department, filled and signed by the owner of the grain or his authorized agent, relieving such Inspector of all responsibility for damage which may be caused by such wet

weather, or loss by such errors as are liable to occur by reason of darkness; but in every case the Inspector must be personally present when the grain is actually delivered on board, making his report of the inspection after such actual delivery.

NOTICE.

All matters pertaining to the inspection of grain should be taken up with the Chief Inspector of Grain.

In case of unsatisfactory inspection, write or wire immediately. Grain cannot be re-inspected after it has been unloaded and the identity of it lost.

W. SCOTT COWEN,
Chief Inspector of Grain.

The charge for services rendered by this Department shall be uniform to all persons, firms and corporations, and shall not be changed without proper notice being given of the proposed change, such notice to be posted in a conspicuous place in the Exchange Room of the Board. This Department may charge a higher rate in special cases outside of the Chicago district, but in no case can it make any reduction from the established rates.

Seventh. Nothing in the foregoing regulations shall prevent the buyer or seller, or his representative, from personally examining any car or cargo of grain bought or sold under the Rules of the Board of Trade of the City of Chicago, but under no circumstances can a Board of Trade official certificate be given by the party thus examining; any unofficial party, or his employer, inspecting any car or cargo of grain shall not have the right of appeal to the Grain Committee unless the grain has been loaded under the supervision of the Official Sampler of this Department.

Eighth. The fees authorized to be collected by this Department for sampling grain shall be as follows:

The same facility shall be accorded to such helpers for the purpose of examining and sampling grain loaded into vessels or cars at any private elevator or cleaning house by the proprietors of such houses and their employes, as is now accorded to regular State Inspectors.

Tenth. Such helpers shall be required to give bonds. They shall be subject to control and discharge by the State Grain Department, exactly as are the Deputy Inspectors. They shall be appointed on recommendation of the Grain Committee. Their salaries shall be paid by the State Grain Department with money furnished if necessary by the Board of Trade. When not actively engaged in duties described by the State Grain Department they shall be subject to control and direction of the Chief Sampler in such work as he may require.

Twelfth. Such samples shall be kept on file in the Chief Sampler's office a reasonable time, labeled, however, by grades and numbers which shall indicate their identity only to the State Department and the Official Sampler, and thus unidentified they shall be accessible to the public.

Thirteenth. It shall be one of the duties of the Official Sampler to thoroughly examine these samples daily, and in case any of them indicate improper grading, he shall, in case the Chief Inspector, the Supervising Inspectors or the Appeal Committee have not already

taken up such improper grading for correction, call their attention to same, explaining in what way the inspection has been too lenient or too rigid.

Fourteenth. In case the Official Sampler or any other party at interest, *i. e.*, the buyer or the seller, should thus complain to the State Department and fail to have his complaint properly or favorably considered by the State Department, it shall be the duty of the Sampling or Grain Committee to listen to his complaint, and if it is in their judgment reasonable, the other parties at interest shall be notified, and the matter taken up by the Grain Committee with the State Department—all parties at interest being given an opportunity of being present at such hearing.

In the examination of samples of grain inspected, a standard sample shall be used as a gauge, and in case of doubtful grain, which is very near the "line," a comparison shall be made with such standard sample, and in case of disputes calling for an appeal, final decision shall be rendered in accordance with such comparison.

Sixteenth. Standard samples above referred to shall be made up as early as possible at the beginning of each crop year, and approved by the State Inspection Department, Appeal and Sampling Committees and the Official Sampler—all working together to make up a fair and equitable standard.

Seventeenth. In cases where it is necessary for the Grain or Sampling Committee to take the question of moisture into account, rendering a chemical analysis necessary, this shall be made promptly.

Eighteenth. Nothing in the above shall be understood as giving the Grain Committee any privileges relative to the examination of samples or the knowledge of their identity other than those enjoyed by the public, excepting when complaint is made to them under the provisions of the above regulations, or when an appeal is taken as is provided in Section 18 of Rule 22, 2nd paragraph, in which case the examination shall be made at such time and place and after such notification as will give all parties at interest an opportunity of being present.

Nineteenth. In case it should not be feasible to obtain samples of track arrivals in the manner above outlined, owing to the volume of grain coming in, an arrangement may be made with Receivers' agents to work in conjunction with Inspectors to take an extra sample for file in the Chief Inspector's office as above outlined.

Provision Inspection, whose duty it shall be to make daily written reports to the Registrar, of all property found by them in store and represented by Registered Provision Warehouse Receipts, registered under the Rules and Regulations of the said Board of Trade; such written reports to accurately describe each and every lot of provisions so represented, and to be submitted in such form and detail that an exact comparison may easily be made with each Registered Warehouse Receipt, registered and issued as aforesaid; and in every instance to be based upon official and personal identification of the property described in said returns.

It shall be the duty of the Registrar to daily compile and formulate the reports of his deputies rendered under this Regulation, in such form that the quantities and descriptions of each kind of property represented by Registered Warehouse Receipts in all "regular" provision warehouses shall be clearly, definitely and fully stated.

And, further, it shall be the duty of the said Registrar to record, or cause to be recorded, such daily compilation, in a book prepared under his direction, for the special purpose of providing information with reference to provisions said to be stored in "regular" warehouses and represented by Registered Warehouse Receipts; the said book to be kept in the office of the Registrar, and to be accessible during business hours to members of this Association.

Duty of proprietors or managers to report any irregularities.

Fifth. All such warehouse proprietors or managers shall promptly report to the said Registrar, as the same shall come to their knowledge, any information touching the condition of any property held in store by them, under Registered Warehouse Receipts, that will tend to impair its value, and which it may be important and proper should be known to the trade.

Duty of the Board of Directors to inspect warehouses.

Sixth. It shall be the duty of the Board of Directors prior to the first day of June in each year to inspect, or cause to be inspected, all warehouses for the storage of provisions, the proprietors or managers of which shall apply to have the same declared "regular" under the rules of the Board of Trade, and no warehouse shall be declared a regular warehouse for the storage of provisions, which shall not comply with the Rules of the Board of Trade and these requirements, and which is not under the supervision of the United States government as such supervision is defined and described in an act entitled "An act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1907, approved June 30, 1906," (Public Document No. 382), nor until the proprietors of such warehouse shall have filed a bond in the form and conditioned as provided in the Rules of the Board of Trade and in the amount fixed by the Board of Directors, and such bond shall have been approved by the Board of Directors. Warehouse receipts for provisions issued by warehouses so declared regular by the Board of Directors shall be regular for delivery on contracts under the Rules of the Board of Trade so long as the said warehouse shall continue to be a regular warehouse for the storage of provisions, but the term for which any warehouse is declared a regular warehouse for the storage of provisions to issue such receipts

shall be limited to and expire on the first day of June in each year. No receipts issued on provisions stored in any warehouse after that date shall be regular for delivery under the Rules of the Board of Trade, unless the warehouse upon which it has been issued has again been declared a regular warehouse by the Board of Directors; but receipts for property in store in such warehouse at that date shall continue to be regular for such delivery so long as the property remains intact in such warehouse.

Concerning receipts for property stored in warehouses not again declared regular.

Application may be made after the first day of June in any year to have a warehouse declared regular, and the Board of Directors may declare such warehouse regular in accordance with and subject to the provisions and of said rules and requirements.

Time of application.

Seventh. Any regular warehouse may, for good and sufficient reasons, satisfactory to the Board of Directors of the Board of Trade, be declared no longer a regular warehouse for the storage of provisions under the Rules of the Board of Trade, *provided*, property already in store in such warehouse shall continue to be regular on delivery so long as it remains intact in such warehouse.

Warehouses may be declared no longer "regular." Proviso.

Eighth. The proprietors or managers of a regular warehouse shall pay any and all charges for switching cars to and from any warehouse for the purpose of loading property for delivery from such warehouse, and shall keep the holders of the receipts for such property free from all liability for such charges.

Protection of holders of receipts against switching charges.

Ninth. The proprietors, or managers, of a regular provision warehouse shall not issue for regular delivery, nor shall the Registrar of Provisions register for regular delivery, any warehouse receipts for which it is not possible to obtain proper insurance on the property by the party, or parties, receiving the said warehouse receipts on a regular delivery.

Restrictions on Register in regard to proper insurance.

M. of each business day, under penalty of a fine of five dollars if tardy, and the posting of the delinquent party on 'Change at 12:00 M., except on days when the Exchange Room is closed at 12:00 o'clock M., when the names of delinquents shall be posted at 11:30 A. All doubtful items must be excluded from the report.

VI.

If a claim is not allowed by the debtor, the claimant must on notice thereof, pay to the Clearing House by certified check the amount claimed; such payment to be made before 1:00 o'clock P. M. of the day on which notice is served, under penalty of a fine of five dollars (\$5.00). If such claim is not paid prior to 2:30 o'clock P. And whenever the President or Secretary of any corporation enjoying the privileges of the Clearing House shall have been expelled or suspended for misconduct in connection with the business of said corporation, such corporation shall thereafter and during the period of such suspension be entitled to the privileges of the Clearing House only after favorable action of the Board of Directors upon its written application for such privileges.

XIV.

Any corporation applying for membership in the Clearing House of the Board of Trade of the City of Chicago, may be admitted to such membership only upon recommendation of the Clearing House Committee, in the exercise of its discretion, and upon approval by at least ten affirmative ballot votes of the Board of Directors; *provided*, that three negative ballot votes are not cast against any such corporation.

XV.

XVI.

Applications by persons or firms for membership in the Clearing House of the Board of Trade of the City of Chicago must be submitted to the Clearing House Committee and passed upon favorably by them before applicants will be entitled to the privileges of the said Clearing House of the Board of Trade of the City of Chicago.

REGULATIONS

For the Weighing of Grain

Under and by virtue of the provisions of Section 2, Rule IV, of the Rules of the Board of Trade of the City of Chicago, enacted in pursuance of Section 10 of the Act to Incorporate the Board of Trade of the City of Chicago, the following regulations are adopted by the Directors of the said Board of Trade of the City of Chicago, for the guidance and information of the Weighing Department and the members of this Association.

REGULATION 1.

Received or transferred grain shall not be cleaned or blown before weighing, nor shall it be subjected to such handling as will cause loss in weight. This prohibition shall also apply to shipments after weighing.

REGULATION 2.

No dockage from actual weights shall be allowed on in-coming or out-going grain, except when unusual dirt or foreign matter is inseparably mixed with the grain, in which case it shall be the duty of the weighmaster or his deputy to determine the amount of unusual dirt or foreign matter, and to weigh the entire contents of the car. All allowances for unusual dirt or foreign matter shall appear on the face of certificate issued for such cars.

REGULATION 3.

All cars when unloaded must be thoroughly swept and cleaned, except in cases where cars contain foreign matter unsuitable for mixing with grain. Then it shall be the duty of the Weighmaster or his deputy to determine the amount of grain and foreign matter to be left in the car. This amount shall be stated on the certificate of weights for each car, but such amount shall not be included in the net weight as shown by certificate.

REGULATION 4.

If hopper scales are used in determining the amount of grain a car contains, it shall be the duty of the elevator operators unloading such car to deliver to the scales the entire contents of said car except where cars contain unusual dirt or foreign matter not covered by Reg. 3, because not suitable for handling by elevator.

It shall be the additional duty of said elevator operator to clean thoroughly the unloading pits and the floor adjacent to such pits of any of the contents of said car that may have lodged there and deliver such contents to the scale to be weighed and credited to said car.

REGULATION 5.

The contents of each car shall be weighed in as few drafts as the scale in use will permit.

REGULATION 6.

The Weighmaster and his deputies shall be allowed to handle the scale beams in the performance of their duties.

REGULATION 7.

Certificates of weight shall bear the date of weighing, and when issued for cars that have been loaded with grain which, for any reason, are subsequently returned to the loading elevator and wholly or partly unloaded, shall promptly be returned to the weighing department by the member, firm or corporation receiving such certificates.

REGULATION 8.

No certificates of weights shall be issued on grain unloaded or transferred en route unless they are applied for within a reasonable time after cars are weighed, and before they have had time to arrive at their destination.

REGULATION 9.

A straight transfer must consist of the transferring of grain from one car to another without its identity being lost. If transferred through an elevator, the grain must go direct from the western or unloaded car to the scale and from the scale direct to the eastern, or car to be loaded without going into or through any house bins.

REGULATION 10.

All cars that are to be loaded with grain shall be in a suitable condition to carry such grain safely. In case cars are loaded that, in the judgment of the Weighmaster or his deputies, are not in proper condition to carry grain safely, the parties loading such cars shall at once be notified, and a statement of the condition of the car shall appear on the face of the certificate of weight issued for such cars.

REGULATION 11.

The Weighmaster in regulating the details of his office and the service of employes may, with the consent of the Weighing Committee, make such regulations as may be requisite or desirable in order to secure correct weights.

REGULATION 12.

Any member, firm or corporation of this Association receiving weight certificates not belonging to them shall return promptly such certificates to the Weighing Department, in order to facilitate delivery to the rightful owner.
